

## Education

---

West Chester, PA

West Chester University

Aug 2018 | May 2020

- BS in Computer Science. GPA: 3.6

## Professional Profile

---

### Who Am I?

- Sophomore who has been coding independently with a passion for over 10 years
- Strong in design and problem solving skills
- Looking to learn new things and get hands on experience in a fast-paced environment
- Comfortable working solo or in a team setting

## Technical Skills

---

- Programming Technologies:: Python, Java, HTML/CSS, JavaScript
- Other Technologies:: Flask, Ruby On Rails, Git, Bootstrap 4

## Projects

---

- **Dog SMS** (<https://github.com/DevinParentice/DogSMS>) Based on what the San Fransisco Museum of Art did to promote their collection of paintings, this program was designed to make it easy for people looking to adopt a pet. Text the number, and receive back a picture and basic info of a dog that needs a new home. Python, Flask
- **Trivia Solver** (<https://github.com/DevinParentice/TriviaBot>) Given a multiple choice trivia question, this program utilizes Google to determine which answer has the most probability of being correct. Twilio API, BeautifulSoup 4
- **Personal Portfolio Website** (<http://devinparentice.com>) A website to act as a portfolio for projects, built with Bootstrap 4. It features links for ways to view the source code and ways to get in contact with me. HTML/CSS/JavaScript, Bootstrap 4

## Other Experience

---

Head Start Students Leader  
(Volunteer)

Care Center Foundation

Sep 2018 – Jan 2019

West Chester, PA

- Lead technology education lessons in the classroom to get children involved with Computer Science
- Helped run a turkey drive for families that could not afford a Thanksgiving dinner
- Organized toy drive for families in need during the Christmas season
